Subject: Juneau Access Road

To whom it may concern:

I'm a supporter of the Juneau Access Road. Our ferry system is not sustainable, they are becoming more and more expensive to run and not convenient. Juneau needs an access road to help alleviate the expensive costs to ship to and from Juneau, to improve access to our State Capital, to improve commerce in SE Alaska which will all in turn reduce the costs of living in SE Alaska. Please shun the NIMBYs'... the access road will require us to build bridges and cross valued habitat, but the reality is the road is more Sustainable than the ferry system over the long term. It may not make sense to members of SEACC,... but, what does?

Sincerely,

Mike Mauseth
